

Policy Statement & Procedures

At Foxglove Violet Hill, we are frequently in contact with confidential information. To ensure that all those using and working in the Nursery can do so with confidence, we respect confidentiality in the following ways:

- Parents/carers will have ready access to files and records of their own children but not any other child. It is important to share information with parents/carers and with one another in order to support the child's development.
- Staff will only discuss individual children with the parents/carers of that child or other staff members.
- Information given by parents/carers to Nursery staff will not be passed on to third parties without the parents/carers permission. For example, advice from outside agencies and professionals.
- Personal issues will remain confidential to the people involved.
- Any safeguarding matters relating to any child will be kept in a confidential file and will be shared within the Nursery on a 'need to know' basis.
- The Nursery is aware of its responsibilities under the General Data Protection Regulations 2018 and where relevant the Freedom of Information Act 2000. It is also registered with the Information Commissioner's Office (ICO).

Who is Responsible?

It is the responsibility of all members of staff to ensure that all confidential information including personal records for children, parents and staff remain confidential and within the confines of the setting. The information stored in the nursery files about the children is available only to Nursery staff and the individual child's parents. This information is stored securely. Observation and assessment data is stored by our online learning journey supplier, Tapestry. This is stored securely in line with our Tapestry contract and is available on request. Staff are permitted to log in to their Tapestry accounts from locations outside of the setting, provided they do not share their login information, logout securely at the end of the session and change passwords regularly.

All members of staff including volunteers and work experience will be aware of the Confidentiality Policy and will be required to accept and sign the Nursery's confidentiality agreement. At all times, any information given by parents or children will be treated with the safety and wellbeing of the children in mind.

The Nursery will consider any unauthorised sharing of information as a serious offence and will take appropriate disciplinary action against anyone who breaks the confidentiality agreement.
